## Villages Expansion Project to Break Ground in May

Already a leader in providing a comprehensive range of services and housing options for seniors, Unity Health System is ready to take The Villages at Unity to the next level.

A major expansion of The Villages at Unity is planned in response to the need for more senior housing options and specialized care, and to ensure that today's residents, and those of tomorrow – have the choices and services they truly desire.

First opened in 1990, and later expanded with construction of the Woodland Village, The Villages at Unity complex currently include 302 independent and enriched senior living apartment homes.

### **The Villages at Unity expansion project will:**

- Add a 40-apartment enriched living community
- Convert the Hamlet, the existing enriched living community, into a 20-apartment memory care center
- Build a climate-controlled connector between all parts of The Villages at Unity
- Add an exercise room for yoga, weight training, aerobics, and other life enrichment programs
- Add a dedicated meditation room
- Build a community center for enhanced life enrichment programs and additional dining options

Groundbreaking is scheduled for Spring 2011, with completion in 2013.

### **What You can Expect in the Next Few Months**

In an effort to enhance communication about the expansion project, this newsletter will be distributed bi-weekly and will provide the latest news including site work, visits from outside contractors, planned interruptions, and any other details that might affect residents and staff.

Copies of the newsletter will be located in the plastic sleeve on the expansion poster hung at each entrance and will also be posted on our web site [VillagesSeniorLiving.org](http://VillagesSeniorLiving.org). Staff will receive this update with their paychecks.
